

EXPERIMENT 9 - Campus Connect Form Validation

AIM:

To design and implement a simple input form for Campus Connect that validates email and phone number using HTML, CSS, and JavaScript with Validator.js.

TOOLS USED:

HTML, CSS, JavaScript, Validator.js, Visual Studio Code

PROCEDURE:

1. Create HTML form with email and phone fields.
2. Apply simple CSS styling.
3. Use JavaScript with Validator.js for validation.
4. Display error messages for invalid inputs.

SOURCE CODE:

```
<!DOCTYPE html>
<html>
<head>
<title>Campus Connect</title>
<script src="https://cdnjs.cloudflare.com/ajax/libs/validator/13.6.0/validator.min.js"></script>
<style>
body {
font-family: Arial;
background: #f5f5f5;
display: flex;
justify-content: center;
align-items: center;
height: 100vh;
}
.container {
background: white;
padding: 20px;
border-radius: 10px;
width: 300px;
box-shadow: 0 0 10px rgba(0,0,0,0.2);
}
input, button {
width: 100%;
padding: 10px;
margin-top: 10px;
}
.error {
color: red;
font-size: 12px;
}
</style>
</head>
<body>
<div class="container">
<h2>Campus Connect</h2>
<form id="form">
<input type="text" id="email" placeholder="Enter Email">
<div id="emailError" class="error"></div>

<input type="text" id="phone" placeholder="Enter Phone">
<div id="phoneError" class="error"></div>

<button type="submit">Submit</button>
</form>
</div>

<script>
document.getElementById("form").addEventListener("submit", function(e){
e.preventDefault();

let email = document.getElementById("email").value;
let phone = document.getElementById("phone").value;
let emailError = document.getElementById("emailError");
```

```
let phoneError = document.getElementById("phoneError");

emailError.innerHTML = "";
phoneError.innerHTML = "";

let valid = true;

if(!validator.isEmail(email)){
    emailError.innerHTML = "Invalid Email";
    valid = false;
}

if(!validator.isMobilePhone(phone, 'any')){
    phoneError.innerHTML = "Invalid Phone";
    valid = false;
}

if(valid){
    alert("Welcome to Campus Connect!");
}
});
</script>
</body>
</html>
```

RESULT:

The Campus Connect form was successfully created and validated. The system correctly checks email and phone number inputs and displays error messages.
